EPC TENDERS TOWARDS THE SIGNATURE OF THE CONTRACTS

The first EPC tender for social housing in Italy is about to close the signature of the contract between the Social Housing Operator and the ESCo.

The tender was launched in 2017 and concerned the energy redevelopment of 44 social

The tender was launched in 2017 and concerned the energy redevelopment of 11 social housing buildings located in the province of Genoa.

Pursuant to national legislation on public procurement, the awarding of the call became effective on the 3rd of December and the winning ESCo is now drafting the technical projects of the interventions.

In the meantime, the awarding phase of the second EPC call for tenders has started and is scheduled to finish in the first few months of 2019

This call is about the energy efficiency of further 23 Social Housing buildings located in the provinces of Savona, Imperia and La Spezia.

Further updates will be published on the project website and on the internet page of the regional contracting authority (SUAR).

◆ Shortly available the EnerSHIFT vademecum on energy saving at home drawn up by the Unions' Syndicates

The vademecum prepared by SUNIA, SICET and UNIAT will soon be available on the project website. The publication aims to promote energy saving of families through good behavioural practices, indications and tips for the correct management of energy at home and information about national subsidies to pay energy bills.
